Profile

Frontend Developer specializing in responsive web and dashboard design, ensuring seamless accessibility across all devices. Skilled in building high-performance dynamic projects with clean, maintainable code. Experienced in working with REST APIs and GraphQL APIs, with strong ability to integrate external tools, libraries, and CMS systems such as Strapi to deliver scalable and efficient solutions.

Education

2021 – 2025 Bachelor's degree in Computer Science
Giza, Egypt Akhbar Elyoum Academy

Professional Experience

01/2023 – present Frontend developer
Giza, Egypt Vconnct

- Developed responsive and dynamic web pages and interactive dashboards, ensuring optimal performance, usability, and cross-device compatibility.
- Gained hands-on experience with LiveKit and WebRTC to build real-time communication features similar to Zoom and Google Meet, including chat, raise hand, microphone, and video functionality.
- Integrated Supabase SDK in web applications to handle real-time data, authentication, and database operations
- Integrated Strapi APIs with frontend projects for dynamic content rendering and efficient data handling.

Projects

Vconnct website [🔗](#)

Tech Stack: Next.js, TypeScript, Cal.com [🔗](#), Tailwind CSS, and multiple payment gateways (Visa, Fawry, Smart Wallets)

Developed a **high-performance website** with a scalable and maintainable architecture. Integrated **multi-payment gateways** for seamless transactions and connected with **Cal.com** [🔗](#) to enable effortless meeting bookings. Designed a **responsive, intuitive UI** optimized for all devices.

Vconnct Dashboard [🔗](#)

Tech Stack: React.js, TypeScript, Tailwind CSS, Redux Toolkit Developed and maintained an **interactive dashboard** for tracking meeting statuses, scheduling and managing meetings, viewing analytics, and handling subscriptions. Implemented **intuitive UI components**, optimized **real-time data performance**, and integrated **secure payment and subscription workflows** to deliver a seamless user experience.

Inmate Communication System – Dubai Correctional Project

Tech Stack: Next.js, Material UI, Tailwind CSS, Supabase

Developed a **dual-dashboard system** (Admin & Visitor) to enable secure inmate–visitor communication. The **Admin Dashboard** manages users, sessions, and real-time updates via **Supabase**, while the **Visitor Dashboard** allows visitors to register, schedule, and track sessions through a responsive, intuitive interface.

Admin Dashboard for Managing Companies and Clients

Tech Stack: Next.js, TypeScript, Tailwind CSS, Zustand

Developed a **modern admin panel** with a scalable and maintainable architecture. Implemented **data visualization**, **table filtering**, and **role-based UI** features to enhance usability and functionality. Focused on **responsive design**, **performance optimization**, and **accessibility** across all devices.

KAROOT Dashboard

Tech Stack: Next.js, TypeScript, Tailwind CSS, Redux Toolkit Developed an **interactive dashboard** for managing **orders, customers, and worker performance**. Implemented **real-time data visualization** for active, completed, and pending orders, along with earnings tracking. Designed **user-friendly interfaces** to display recent orders, customer insights, and top performers, improving operational efficiency and overall user experience.

Tawteen website [↗](#)

Tech Stack: Next.js, Redux Toolkit, React Query, Strapi CMS, Tailwind CSS Developed a **responsive, high-performance investment platform** to facilitate investment opportunities. Utilized **Next.js** for server-side rendering and optimized SEO, integrated **Redux Toolkit** for state management, and used **React Query** for efficient data fetching and caching. Implemented **Strapi CMS** for scalable, dynamic content management, ensuring a seamless user experience across all devices.

Courses

Online Certification

Front-End Development Certification

freeCodeCamp

Completed the FreeCodeCamp Front-End Libraries certification, gaining practical experience in **SCSS**, **Bootstrap**, **jQuery**, **React**, and **Redux**. Skilled in creating responsive, interactive, and maintainable web applications following modern front-end development practices.

04/2022 – 10/2022

Frontend development diploma

Giza, Dokki

Route academy

Games : <https://ahmedsoliman03.github.io/Games> [↗](#)

This dynamic website offers multiple game categories, allows you to select a game to view its details, and provides a 'Show Game' option to start playing.

Weather Forecast Application: <https://ahmedsoliman03.github.io/weather> [↗](#)

•Designed and developed a web application to deliver a 3-day weather forecast based on the user's location or a searched city.

Skills

Core Frontend Foundations

HTML , CSS , JavaScript

Frontend Frameworks & Libraries

React.js , Next.js

Styling & UI Frameworks

Tailwind CSS , Bootstrap , Material UI (MUI) ,
Shadcn UI , Radix UI
Optimistic UI (pattern for smoother user experience)

State Management

Context API , Zustand , Redux Toolkit

Forms & Validation

Formik , Yup

Data Fetching & Real-Time Communication

React Query , Socket.IO

Type Safety & Development Tools

TypeScript , Git , Gitlab , GitHub
