Profile

Frontend Developer specializing in responsive web and dashboard design, ensuring seamless accessibility across all devices. Skilled in building high-performance dynamic projects with clean, maintainable code.

Education

2021 – 2025 **Bachelor's degree in Computer Science**
Giza, Egypt *Akhbar Elyoum Academy*

Professional Experience

01/2023 – present **Frontend developer**
Giza, Egypt *Vconnct*

- **Developed responsive and dynamic web pages, ensuring optimal performance and cross-device compatibility.**
- **Designed and implemented interactive dashboards with a focus on usability and seamless user experience.**
- **Gained hands-on experience with LiveKit and WebRTC to build real-time communication features similar to Zoom and Google Meet, including chat, raise hand, microphone, and video functionality.**

Projects

Vconnct website [🔗](#)

- Developed a high-performance website with **Next.js** and **TypeScript**, ensuring scalability and maintainability.
- Integrated **multi-payment gateways** (Visa, Fawry, Smart Wallets) for seamless transactions.
- Connected with **Cal.com** [🔗](#) (open-source scheduling automation) to enable users to book meetings effortlessly.
- Designed an intuitive UI with responsive layouts for optimal cross-device usability.

Admin Dashboard for Managing Companies and Clients

Developed a modern admin panel using the **Veuxy dashboard**, leveraging **Next.js**, **Tailwind CSS**, and **TypeScript** for a scalable and maintainable architecture.

- Implemented data visualization, table filtering, and role-based UI features to enhance user experience and functionality.
- Emphasized responsive design, performance optimization, and accessibility across devices.

KAROOT Dashboard

Developed an interactive dashboard for managing orders, customers, and worker performance. Implemented real-time data visualization for active, completed, and pending orders, as well as earnings. Designed user-friendly interfaces to display recent orders, customer insights, and top performers, enhancing operational efficiency and user experience.

Vconnct Dashboard

Developed and maintained an interactive dashboard enabling users to track meeting statuses, schedule and manage meetings, view comprehensive analytics, and handle subscription management. Implemented intuitive UI components, optimized performance for real-time data updates, and integrated secure payment and subscription workflows for seamless user experience

Tawteen website

Investment-focused web application Developed a responsive and high-performance web platform aimed at facilitating investment opportunities. Built using **Next.js** for server-side rendering and optimized SEO, integrated **Redux Toolkit** for state management, and leveraged **React Query** for efficient data fetching and caching. Implemented **Strapi CMS** for dynamic content management, ensuring scalability and easy data handling. Focused on delivering a seamless user experience across all devices

Courses

04/2024 – 10/2024 Giza, Dokki	Frontend development diploma <i>Route academy</i> Games : https://ahmedsoliman03.github.io/Games  This dynamic website offers multiple game categories, allows you to select a game to view its details, and provides a 'Show Game' option to start playing.
